

Assignment-3

TOPIC:OD ASSISTANCE APP FOR COLLEGE STUDENTS

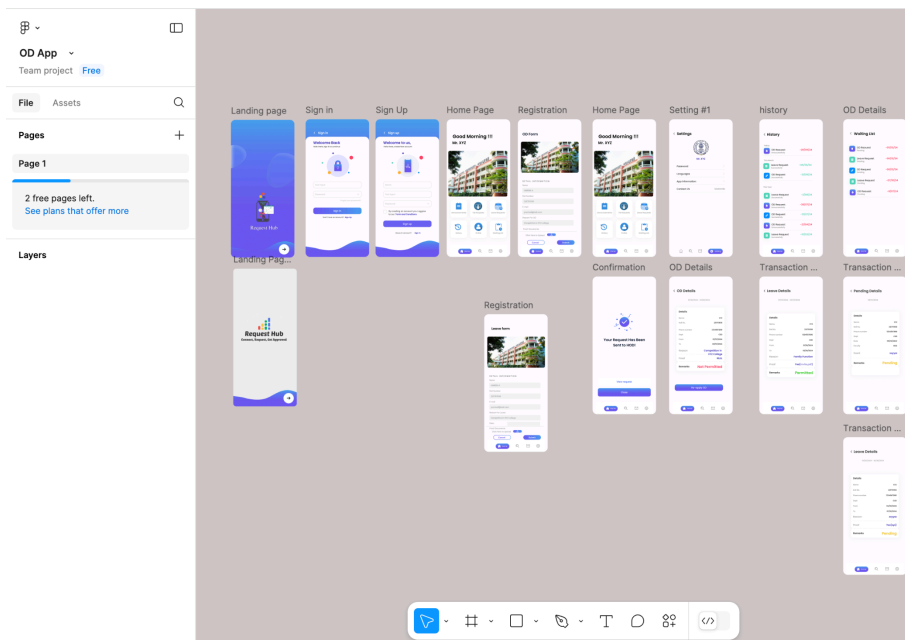

AIM:

To design an intuitive and user-friendly interface for an **On-Duty Assistance App** that simplifies the process of applying for leave, tracking approvals, and managing attendance for college students.

PROCEDURE:

1. Conduct research to the needs of college students for an OD assistance app.
2. Define the essential features and functionalities of the app.
3. Design wireframes to plan the app's layout and navigation.
4. Create a high-fidelity prototype using design tools.
5. Test the prototype with users and gather feedback for improvement.
6. Finalize the UI design based on the feedback and usability results.

OUTPUT:

RESULT:

The UI design simplifies the process of applying for and tracking on-duty requests, providing a seamless experience for college students. It features intuitive navigation, a clean layout, and essential functionalities tailored to user needs. The final prototype ensures usability, accessibility, and alignment with student expectations.
